Dear Sir:

SUMMARY OF INTERVIEW

Pursuant to MPEP § 713.04, Applicants submit the following summary of an applicant-initiated interview with Examiner Luu conducted on March 21, 2006.

Brief Description of the Nature of any Exhibit Shown or any Demonstration Conducted:

No exhibits were shown and no demonstrations were conducted.

Identification of the Claims Discussed:

The limitations of independent Claims 1, 15, 31 and 34 were discussed.

Identification of Specific Prior Art Discussed:

Amro, *et al.*, U. S. Patent No. 5,680,561 (“Amro”)

Identification of the Principle Proposed Amendments of a Substantive Nature Discussed:

The Examiner and Applicants’ representative generally discussed the differences between the independent claims and the Amro reference. The Examiner and Applicants’ representative discussed a proposed claim amendment that recites a preview that “includes actual content from said item that would be displayed in the primary display area.”

The General Thrust of the Principal Arguments of Applicants and the Examiner:

The Examiner and Applicants’ representative generally discussed the proposed claim amendment. The Amro reference teaches a preview that includes only *symbols* that will never be presented in the primary display area. The Examiner indicated that the proposed claim amendment may overcome the present rejection and requested that Applicants’ representative, in the next response, point to instances in the specification that disclose a preview display that includes *actual content* from an item.

General Indication Of Any Other Pertinent Matters Discussed:

No other pertinent matters were discussed.

Respectfully submitted,

A handwritten signature in black ink, appearing to be 'R. H. Reckers', written over the printed name.
